GENERATIVE ENGINE OPTIMIZATION AUDIT

SEO, GEO & AEO Audit: marvice.in

AUDIT DATE

27 September 2026

Prepared by **Marvice Media Pvt Ltd** · Bengaluru & Chennai · marvice.in · +91 80562 91930

SEO, GEO & AEO Audit: marvice.in

Audit date: 27 September 2026 · Pages crawled: 38 (every sitemap URL) · Prepared by: Marvice Media Pvt Ltd

Overall GEO Score: 66 / 100 Fair

SEO 64/100 · GEO 66/100 · AEO 68/100

Scores

DISCIPLINE	WHAT IT MEASURES	SCORE	GRADE
SEO	Ranking in Google's classic results	64 / 100	Fair
GEO	Being named and cited by ChatGPT, Gemini, Perplexity, Google AI Overviews	66 / 100 (was 26 → 57)	Fair
AEO	Being the extracted answer: AI answers, featured snippets, voice	68 / 100	Fair

Rank Math's own site audit now reads **100/100** (was 56). That check covers on-page configuration only. The scores above also weigh speed, links, local listings and brand presence, which is where the remaining gap is.

Executive summary

The website itself is now in good shape: every page is real Marvice content, correctly titled, described, canonicalised, marked up with valid structured data, listed in a working sitemap, and readable by every major AI crawler. Service pages open with a direct answer and carry 4 FAQs each.

What holds all three scores in the 60s is outside the page templates:

1. **Speed.** Mobile Largest Contentful Paint is about 6–7.5 s (good is under 2.5 s) and desktop layout shift is 1.0 (good is under 0.1), mainly because LiteSpeed delays all JavaScript until the first tap or scroll, so the hero loads blank and then jumps.
2. **Off-site entity.** Search engines and AI summaries still describe the *old* Marvice ("four sector of brands", UVcart, 17 Purasawalkam High Road). The Justdial listing still carries the Purasawalkam address, there are no Google Business Profiles, and Marvice is absent from GoodFirms, Clutch and every "best GEO / digital marketing agency in Bengaluru" list AI engines draw on.

3. **Links.** No measurable link-building yet (plan delivered in [implementation/link-building-plan.md](#)).

SEO: 64 / 100

AREA	WEIGHT	SCORE	EVIDENCE
On-page	25%	95	38/38 unique titles (30–65 chars), 34/38 descriptions (the 4 without are category archives, now noindexed), 38/38 self-canonical, 38/38 OG image, 37/38 exactly one H1 (blog has 2)
Technical	20%	70	All 200, HTTPS, sitemap fixed (was 404 earlier today), robots clean; no HSTS or security headers , http://marvice.in in header logo / footer links on every page
Performance	15%	40	Mobile LCP 6.0–7.6 s, FCP 5.6–7.6 s, TTFB ~1.2 s; desktop CLS 1.0; ~0.6 MB WPChat assets still loaded; icon fonts loaded twice
Content	20%	75	Median 662 words/page, 30/38 pages ≥500 words, city named on 33/38, 0 lorem ipsum; thin hub pages: Contact 286, Our Projects 279, Our Services 335 words; no case studies with numbers
Off-page & local	20%	28	No Google Business Profile, Justdial shows old Purasawalkam address, no directory/review footprint, backlink data unavailable (Ahrefs plan)

GEO: 66 / 100

COMPONENT	WEIGHT	26 SEP BASELINE	26 SEP RE-AUDIT	TODAY	CHANGE DRIVER
AI citability & content	25%	25	55	70	Answer-first openers on 17 service pages, 72 FAQs, named author
AI platform readiness	25%	20	45	60	Clean llms.txt live, IndexNow → Bing (ChatGPT search, Copilot), Search Console linked, sitemap fixed
Technical foundations	20%	45	72	70	H1 + sitemap fixed, but real-browser speed/CLS measured poor today
Structured data	15%	5	82	90	Service ×22, FAQPage ×19, Chennai office, 3 brand entities, author Person → LinkedIn, 0 invalid
Brand authority & entity	15%	30	35	38	Director-level author; still no GBP, listicles or reviews, stale third-party descriptions
Overall		26	57	66	

AI crawler access: ClaudeBot, PerplexityBot, OAI-SearchBot, ChatGPT-User, Google-Extended, Bingbot, Applebot all 200. **GPTBot received one HTTP 429 (rate-limited)** in testing — check hPanel bot protection.

AEO: 68 / 100

SIGNAL	SCORE	EVIDENCE
Question-and-answer coverage	80	18 service pages × 4 FAQs + /faqs/ (9); question text on 26/38 pages
Answer-first formatting	75	17 service pages open with who/what/where; homepage H1 "Digital" is thin as a statement
Answer structured data	85	FAQPage on 19 pages, Service on 22, Organization/LocalBusiness complete
Snippet-ready format	60	Answers 30–60 words (good); few lists/tables/definitions outside the blog
Trust behind the answer	40	Named author now, but no reviews, ratings, case-study numbers or press mentions
Answer-engine indexing	65	Search Console linked, IndexNow sent; Bing Webmaster Tools not verified

Fixed during this audit

- Category archives (incl. demo "Clock Fly Strategy") → noindex and removed from sitemap.
- Author profile: Director of Marvice Media Pvt Ltd (per MCA records), LinkedIn as sameAs.

Priority actions

#	ACTION	OWNER	EFFORT	LIFTS
1	LiteSpeed → JS: <i>Load JS Deferred</i> = Deferred (not Delayed); remove WPChat	Marvice (wp-admin)	5 min	SEO performance, CLS, blank hero
2	Google Business Profiles for Koramangala + Nungambakkam	Marvice	1 hr + verification	SEO local, GEO brand, AEO trust
3	Update Justdial (and Sulekha/others) to the Koramangala + Nungambakkam addresses; retire Purasawalkam	Marvice	30 min	GEO entity consistency
4	Bing Webmaster Tools (import from GSC), submit sitemap	Marvice	5 min	GEO/AEO (ChatGPT search, Copilot)
5	hPanel: stop throttling GPTBot / AI crawlers; add HSTS + security headers	Marvice (hPanel)	10 min	GEO access, SEO technical
6	GoodFirms + Clutch listings with 5 client reviews each; pitch 5 “best agency” listicles	Marvice	2–3 weeks	GEO brand (biggest single lever)
7	Three case studies with numbers (F&B, events, software) on Our Projects	Marvice + content	1–2 weeks	AEO trust, SEO content

#	ACTION	OWNER	EFFORT	LIFTS
8	Fix http:// logo/copyright links and blog double H1 in the theme header/footer	Marvice (Elementor)	10 min	SEO technical

Projected after actions 1–6: SEO ~75, GEO ~75, AEO ~76 within 60–90 days (brand and link signals take weeks to be recrawled).

Methodology

Live crawl of all 38 sitemap URLs (title, description, canonical, robots, H1, word count, images/alt, JSON-LD types incl. nested [subjectOf](#), question text, city and phone presence); AI-crawler user-agent tests; Rank Math site audit (33 tests, remote API); Core Web Vitals measured in headless Chromium (mobile: 4× CPU, 1.6 Mbps / 150 ms; desktop unthrottled) because the PageSpeed API quota was exhausted — lab values through a proxy, so treat TTFB as approximate; web search for brand, directory and listicle presence. GEO weights follow the geo-seo methodology (content 25, platform 25, technical 20, schema 15, brand 15). SEO and AEO use the weighted rubrics shown in each table.
