SEO, GEO & AEO Audit: marvice.in

Prepared by **Marvice Media Pvt Ltd** · Bengaluru & Chennai · marvice.in · +91 80562 91930

SEO, GEO & AEO Audit: marvice.in

Audit date: 27 September 2026 (after content corrections) · **Pages crawled:** 34 (every sitemap URL) ·
Prepared by: Marvice Media Pvt Ltd

Overall GEO Score: 68 / 100 Fair

SEO 67/100 · GEO 68/100 · AEO 69/100

Scores

DISCIPLINE	WHAT IT MEASURES	EARLIER TODAY	NOW	GRADE
SEO	Ranking in Google's classic results	64	67	Fair
GEO	Being understood and cited by ChatGPT, Gemini, Perplexity, Google AI features	66 (26 on 26 Sep)	68	Fair
AEO	Being the extracted answer: AI answers, snippets, voice	68	69	Fair

Rank Math's site audit: **100/100** — **34 passed, 0 failed, 0 warnings** (the mobile-speed warning cleared after today's LiteSpeed change). These scores are an assessment of readiness, not a prediction of rankings; no edit guarantees placement in Google or AI answers.

Executive summary

The website is now technically clean and its claims are accurate. Every page has a unique title and description, a self-canonical, an Open Graph image and valid structured data; the sitemap has no junk; service pages open with a factual summary and carry visible FAQs whose structured data matches the text; and today's correction brief removed wrong service definitions and guarantee-style wording.

The remaining gap is almost entirely outside the page text:

1. **Speed and layout stability.** Desktop layout shift measures 1.0 (good < 0.1) because the theme's smooth-scroll script moves the whole page about 4 s after load, and first-time visitors still get delayed JavaScript (LiteSpeed Guest Optimization).

2. **Off-site entity.** Search and AI summaries still describe the old Marvice ("four sector of brands", UVcart, Purasawalkam). No Google Business Profiles, the Justdial listing carries the old address, and Marvice is absent from GoodFirms, Clutch and the "best GEO / digital marketing agency in Bengaluru" lists AI engines use.
3. **Trust signals.** No published reviews, case studies with numbers or press mentions; the customer statistics await verification.

SEO: 67 / 100

AREA	WEIGHT	SCORE	EVIDENCE
On-page	25%	97	34/34 unique titles (30–65 chars) and descriptions (70–160), 34/34 self-canonical, indexable, OG image; 33/34 one visible H1 (blog adds a theme screen-reader H1)
Technical	20%	74	All 200; clean sitemap (news sitemap and category archives removed); correct BlogPosting schema; no HSTS , theme http://marvice.in links in header/footer
Performance	15%	45	Rank Math/PageSpeed mobile check passes; lab desktop LCP ~5 s, CLS 1.0 ; first-view JS still delayed
Content	20%	80	Median 672 words; 29/34 pages ≥ 500 words; wrong definitions and absolute claims corrected; thin hubs remain (Contact, Our Projects, Our Services)
Off-page & local	20%	28	No Google Business Profile, stale Justdial address, no review/directory footprint

COMPONENT	WEIGHT	26 SEP	TODAY	CHANGE DRIVER
AI citability & content	25%	25 → 55	72	Answer-first intros, 72 service FAQs, accurate non-guarantee wording, named director-author
AI platform readiness	25%	20 → 45	62	llms.txt live, IndexNow → Bing, Search Console linked, all AI crawlers 200
Technical foundations	20%	45 → 72	72	Clean sitemap and H1; offset by CLS and first-view JS delay
Structured data	15%	5 → 82	93	Service ×22, FAQPage ×19 synced to visible text, Chennai office + 3 brand entities, author Person → LinkedIn, 0 invalid
Brand authority & entity	15%	30 → 35	38	Unchanged off-site: stale listings, no GBP, reviews or list inclusions

AI crawler access: GPTBot, OAI-SearchBot, ChatGPT-User, ClaudeBot, PerplexityBot, Google-Extended, Bingbot, Applebot all HTTP 200.

AEO: 69 / 100

SIGNAL	SCORE	EVIDENCE
Question & answer coverage	80	18 service pages × 4 FAQs + /faqs/ (9); question text on 24/34 pages
Answer-first formatting	75	17 service pages open with who / what / where
Answer structured data	88	FAQPage text now identical to visible answers; Service, Organization, LocalBusiness complete
Snippet-ready format	62	30–60 word answers; few tables or comparison lists outside the blog
Trust behind the answer	45	Accurate, non-guarantee claims and director-level author; no reviews, case studies or press
Answer-engine indexing	65	Search Console linked, IndexNow sent; Bing Webmaster Tools not verified

Completed today

- Content-corrections brief: 39 scoped text fixes across 8 pages, blog category widget repaired, FAQ schema synced in place (see [content-corrections-2026-09-27.md](#)).
- LiteSpeed Advanced preset; alt text on 48 images (coverage 52% → 66%); news sitemap off (posts now BlogPosting); category archives noindexed; author = Director of Marvice Media Pvt Ltd.

Priority actions

#	ACTION	WHERE	EFFORT	LIFTS
1	Turn off theme smooth scroll ; LiteSpeed Guest Optimization OFF , JS = Deferred	Theme options / LiteSpeed	5 min	SEO performance, CLS
2	Fix contact forms: newsletter placeholder, "Send Enquiry" button, sender → yuvarajgs@marvice.in	Contact → Contact Forms	5 min	Conversions, trust
3	Google Business Profiles (Koramangala, Nungambakkam); update Justdial to current addresses	Google / Justdial	1 hr	SEO local, GEO entity
4	Bing Webmaster Tools (import from Search Console); HSTS header	Bing / hPanel	10 min	GEO/AEO, SEO technical
5	GoodFirms + Clutch with 5 reviews each; pitch 5 "best agency" lists	Off-site	2–3 weeks	GEO brand (largest lever)
6	Verify 500+ / 6+ / 4.9 statistics; publish 3 case studies with numbers	Owner + content	1–2 weeks	AEO trust, SEO content

Completing 1–4 should lift SEO to roughly 72–75 within weeks; GEO and AEO depend mainly on 5–6 and typically take 60–90 days to be reflected, with no guaranteed outcome.

Methodology

Live crawl of all 34 sitemap URLs (titles, descriptions, canonicals, robots, H1, word count, image alt, JSON-LD including nested **subjectOf**, question text); AI crawler user-agent tests; Rank Math site audit (38 tests, remote API); Core Web Vitals in headless Chromium (lab, through a proxy — TTFB approximate; PageSpeed

API quota exhausted); brand and listicle presence from web search on 27 Sep 2026. GEO weights: content 25, platform 25, technical 20, schema 15, brand 15. SEO and AEO use the weighted rubrics shown.
