WordPress + Elementor + Rank Math PRO

Prepared by **Marvice Media Pvt Ltd** · Bengaluru & Chennai · marvice.in · +91 80562 91930

GEO Audit Report: Marvice Media (Re-audit)

Domain: marvice.in **Audit Date:** 2026-09-26 (after fixes) **Business Type:** Digital marketing, software & events agency **Locations:** Bengaluru (Koramangala) · Chennai (Nungambakkam) · UK (marvice.co.uk) **CMS:** WordPress + Elementor + Rank Math PRO

Overall GEO Score: 57 / 100 Fair

Executive Summary

marvice.in has moved from **26/100 (Critical)** to **57/100 (Fair)** in one working session, with no change to the theme or design. The site is no longer mostly demo content: every sitemap URL is a real Marvice page, every key page has a keyword-targeted title, description and share image, and search engines and AI assistants now receive a complete business profile (ProfessionalService, address, phone, email, logo, four social profiles), FAQ schema and Service schema on 21 service pages.

The remaining gap is mostly **off-site authority** (Google Business Profiles, directory listings, reviews, third-party mentions) plus a short list of wp-admin and hosting tasks: a stale `llms.txt` file, the homepage H1, security headers, and the legal pages. Completing those, together with the local-SEO steps, is the realistic path to **75+ within 90 days**.

Score Breakdown

CATEGORY	BEFORE	NOW	WEIGHT	WEIGHTED
AI Citability & Content	25/100	55/100	25%	13.8
AI Platform Readiness	20/100	45/100	25%	11.3
Technical Foundations	45/100	72/100	20%	14.4
Structured Data	5/100	82/100	15%	12.3
Brand Authority & Entity	30/100	35/100	15%	5.3
Overall GEO Score	26/100	57/100		57.0

What Changed (verified live)

CHECK	BEFORE	NOW
Sitemap	137 URLs, ~107 demo	35 URLs, 0 demo
Demo pages (hoodies, "Eleanor Pena", lorem posts)	Indexed	404 / removed
Meta descriptions on key pages	0	14/14
Open Graph share image	Missing	14/14
Keyword-targeted SEO titles	None	32 pages & posts
Business schema	None	ProfessionalService + address, phone, email, logo, 4 sameAs
FAQ / Service schema	None	FAQPage + Service on 21 pages
Page type markup	Article/Person on pages	WebPage / AboutPage / ContactPage
Lorem ipsum on core pages	FAQ, blog, homepage	0 (legal pages still lorem)
Old Purasawalkam address	Contact page + description	Removed; Bengaluru + Chennai listed
Demo-server (themexriver) assets	22 references	0
AI crawlers (GPTBot, ClaudeBot, PerplexityBot, Google-Extended, OAI-SearchBot)	Allowed	Allowed
New GEO service page + 4 real articles	—	Live

Critical Issues Remaining

Critical: llms.txt serves stale demo content

`/llms.txt` still lists "Hello world" and lorem-ipsum posts. It is a static file in `public_html/` overriding Rank Math's generated version, which is already configured. **Fix:** delete `public_html/llms.txt` in hPanel File Manager.

Critical: Legal pages are lorem ipsum

Privacy Policy and Terms still contain placeholder text (the privacy policy names themexriver.com). This hurts trust signals for Google and AI assistants. **Fix:** publish the reviewed drafts in [implementation/legal-pages-draft.md](#) .

High Priority Issues

High: No H1 on the homepage

The theme's widgets hard-code H2 tags. **Fix:** add one Elementor Heading set to H1 (styled like the section title): "Digital Marketing, SEO & Software Company in Bengaluru & Chennai".

High: No Google Business Profiles

The single biggest lever for local leads and AI "near me" answers. **Fix:** claim and verify profiles for Koramangala and Nungambakkam with identical name, address and phone.

High: Contact enquiries not delivered

Test submissions return `mail_failed`. FluentSMTP is installed; connect it to yuvarajgs@marvice.in and replace the old Gmail sender in both forms.

Medium Priority Issues

Medium: Security headers missing

No HSTS, X-Content-Type-Options, X-Frame-Options or Referrer-Policy (flagged as a FAIL by SEOmator). Add via hPanel or `.htaccess`.

Medium: Image alt text

64 of 69 homepage images still have no alt text; the theme widgets need alt set per widget in Elementor.

Medium: Stale optimised CSS on the homepage

LiteSpeed UCSS is not regenerating, so homepage CSS fixes (carousel, colours) don't reach visitors. Turn off *Generate UCSS*, then Purge All.

Low Priority Issues

Low: Header/footer links

Logo and copyright links use `http://`; the footer LinkedIn icon points to the admin URL `/mycompany/`.

Component Score Summary

COMPONENT	BASELINE	NOW	90-DAY TARGET
AI Citability & Content	25/100	55/100	70/100
AI Platform Readiness	20/100	45/100	70/100
Technical Foundations	45/100	72/100	88/100
Structured Data	5/100	82/100	90/100
Brand Authority & Entity	30/100	35/100	60/100
Overall	26/100	57/100	75/100

Next 30 Days

1. Delete the stale `llms.txt` ; turn off UCSS; add the homepage H1.
2. Connect FluentSMTP and fix the form senders so leads arrive.
3. Claim both Google Business Profiles; list on Justdial, Sulekha, Clutch, GoodFirms, IndiaMART with identical NAP.
4. Publish the legal pages.
5. Create the 6 keyword landing pages in `implementation/keyword-map.md` (e.g. "SEO company in Chennai", "restaurant marketing agency").
6. Collect 10+ Google reviews mentioning the service and city.

Methodology & Limitations

Live, read-only crawl of marvice.in on 2026-09-26 after fixes (robots.txt, llms.txt, full sitemap, 14 key pages, AI user-agent tests, response headers, JSON-LD parsing), scored with the geo-seo-claude weights used in the baseline (platform 25%, content 25%, technical 20%, schema 15%, brand 15%). Off-site authority (reviews, directories, backlinks) was not re-measured; Ahrefs API access is not included in the current plan. Google re-crawling typically takes 2–6 weeks before ranking changes show.
